

CHARLIE SMALE

Shoreham-By-Sea - Charliesmale@icloud.com - 07788585909

About Me

I love physical crafts, i sketch every day, i love to model make and i produce my own furniture. This has been something that inspired me to pursue architecture. I have a keen interest in designing based of the study of peoples routines and habits and wrote my dissertation on the study of public space through photography. Housing is a particular interest to me as I am able to bring together these interests.

Adobe Indesign	3 Years
Premier Pro	3 Years
Auto CAD	3 years

Employment History

Illustrator, Quadrille Publishing

July 2022 - Oct 2022, London

I worked as the sole illustrator for the DIY Barbecue book, by James Whetlor. I was responsible for producing plans and sections which are used to demonstrate how to assemble the BBQ's. Throughout this job, I worked closely with the client, executing their desires and creating accurate and precise illustrations from rough sketches and dimensions.

CAD Visualisation

Apr 2021 - Jan 2024

I worked for 4 years as a freelance architectural visualiser. During this time I completed over 80 projects, ranging from rendered images to creating complex animations exploring buildings. Working freelance has given me crucial time management skills and professionalism when building up a reputation as an architectural 3D modeller and visualiser. Working on large projects and short deadlines has taught me how to work fast and efficiently, whilst maintaining a high attention to detail.

(See website for more work)

George Laurel & Partners

Apr 2021 - June 2021, Cambridgeshire

Work experience at George Laurel. Working alongside Chartered Surveyor, Dan Hardingham, I joined him on site visits, client meetings and worked with him to create plans and models.

June 2022 - July 2022

Returning to George Laurel, i worked with Dan as a 3D modeller and visualiser to help a client understand plans. I was able to refine my Sketchup and Auto CAD skills alongside the technician.

Sales Assistant, Scotsdale's Garden Centre

2019 - 2022

My responsibilities were in Garden Care, managing stock keeping, warehouse organisation, customer assistance and till work. I worked on the shop floor, helping customers with any queries and finding the perfect product for their needs. I also supervised new employees, teaching them how to work the tills.
